

SPECIFICATION SHEET FOR:-

SK104

SAFETY KNIFE

Type	Code
SK104 Knife	DTM 104
Safe Box	DTM 0331

The SK104 Safety Knife is moulded in a 'metal detectable' plastic compound and is for use in food production areas.

<u>Component</u>	<u>Material</u>	<u>Notes</u>
Knife Body	Polypropylene based Detectable Plastic	PLEASE CHECK WITH YOUR DETECTION EQUIPMENT BEFORE USE
Blades	Stainless Steel	

The Detectamet SK104 safety knife is a lightweight disposable safety cutter .Designed for use by both left and right handers. Featuring a sealed handle with a 14mm blade extension and a non changeable stainless steel blade it incorporates an automatic blade retraction on release of the slider. Its main uses include the cutting of most light weight materials i.e. card/carton board, shrink wrap, nylon pallet strapping, string, paper, plastic wrapping and other such materials

CE-Labeling

Engineered products bearing a CE-label indicate that their design and/or production are backed up by a Certification of Conformity confirming that such product meets the requirements set forth in the relevant EU-Directives based on applicable laws. Please note that all products presently covered in said EU-Directives do NOT include blades knives and cutters so that, as a result, they are not officially qualified to feature a CE-label.

Stainless Food Contact Approved blades
